The monsters - Mothman, the Flatwoods Monster and the Grafton Monster - are looked at from a folkloric perspective, with hands-on interviews and observational research collected in the towns of Point Pleasant, Flatwoods, and Grafton in West Virginia are the core of the project. This project seeks to figure out why and how small towns like these use local legends in order to draw in tourists from around the world and how the legends have affected communities around the world, as well.

Elliott will discuss her research during this special program, which coincides with Hayes Presidential’s special exhibit, “Ohio: An Unnatural History.”

Saturday, Aug. 8, 2020 - *Insight on First Lady Lucy Hayes from her college essays.* 2 p.m. Free.

This is an online talk by Josi Leib, Ohio Northern University student, on Go To Meeting. Leib completed an independent study on First Lady Lucy Hayes’ college essays. Traditionally, First Ladies have been seen as pretty, submissive women on the arm of the most powerful man in the United States. However, with the inclusion of female historians adding a new perspective to the field, the first ladies are starting to get re-examined as more than just figureheads. Martha Washington went from the loving wife of George Washington to being known as the Mother of the American Revolution. Abigail Adams, a wife who had to endure long separations from her husband, is known today for telling her husband to “Remember the ladies.” Dolley Madison became the brave hero of a vital piece of history during the War of 1812. Lucy Webb Hayes, on the other hand, is just Lucy. Little attention is given to her—other than, perhaps, to shame her for her role in banning alcohol in the White House. In re-examining the first ladies, Lucy Hayes should be credited with being the first of the presidents’ wives to receive a college degree. Through an examination of her college essays, one observes that Lucy Webb (future Mrs. Hayes) was highly in tune with the happenings of the world around her with respect to politics and religion. By looking at her college essays, Lieb argues that we can see the woman who would go on to refer to the political career of her husband as “our political career.” To join the live,
